To Whom It May Concern,

I am writing to express my interest in the Co-op Developer position. As a current software developer student at Mohawk College, I have developed a strong foundation in multiple programming languages and am eager to contribute my skills to your team.

Throughout my studies in the Computer Systems Technician - Software Support program, I have gained expertise in languages such as Python, Java, JavaScript, PHP, and HTML/CSS. I have hands-on experience in developing Graphical User Interfaces (GUIs) using JavaFX and have embraced both Object-Oriented Programming (OOP) and Functional Programming techniques. My projects have focused on user experience (UX) design principles, ensuring that the solutions I develop are both effective and user-friendly.

In my web development coursework, I constructed static and dynamic websites using HTML, CSS, and JavaScript, applying SEO best practices to enhance visibility. My proficiency with CSS frameworks like Bootstrap and Tailwind has enabled me to create responsive designs that adapt seamlessly across various devices.

Beyond my academic pursuits, my work experience with the Peel District School Board has honed my problem-solving skills and my ability to work collaboratively in a fast-paced environment. My role required me to ensure the safe operation of school facilities while interacting with staff and students daily. Additionally, my background as an Audio-Visual Technician at Encore Audio Visual provided me with hands-on experience troubleshooting technical issues and maintaining equipment under pressure.

I am proud to be a member of the Dean's List at Mohawk College for both my first and second semesters, which reflects my commitment to academic excellence and my passion for technology. I am excited about the opportunity to leverage my skills and experiences for the Ontario Ministry of Children and Youth and contribute to real-world projects.

Thank you for considering my application. I look forward to the possibility of discussing how I can contribute to your team and support your projects.

To answer your question regarding graduation status, I am currently set to graduate December of 2025.

Sincerely,
Thomas Coons
